

CONTENTS

CHAPTER ONE

INTRODUCTORY SET THEORY

1. Introduction	1
2. Indexed Sets	3
3. The Theorem of DeMorgan	5
4. Cartesian Products. Introduction to Mappings	7
5. Relations, Mappings, Equivalence, Order	11
6. Sequences and Infinite Sets	16
7. Countable and Uncountable Sets	21
Bibliographical Comment	23

CHAPTER TWO

THE REAL LINE

1. Real Numbers and Sequences	24
2. Monotone Sequences	27
3. Cauchy Sequences	30
4. Open Sets	33
5. Connected Sets	36
6. Limit Points and Closed Sets	38
7. Closed and Bounded Sets	42
8. Continuous Functions	45
9. Properties of Continuous Functions	47
10. Summary	49
Bibliographical Comment	51

CHAPTER THREE

TOPOLOGICAL SPACES

1. Definitions and Examples	52
2. Metric Spaces	59
3. Elementary Properties of Topological and Metric Spaces	62
4. Mappings and Subspaces	70
5. Connected Sets	78
Bibliographical Comment	86

CHAPTER FOUR

METRIC SPACES

1. Elementary Properties of Metrics and Metric Spaces	87
2. Local Connectivity and the Introduction of an M Metric	94
3. Sequences	99
4. Second Countable Spaces	106
5. Metrizability	113

CONTENTS

6. The Metrization of Regular, Second Countable T_1 Spaces	120
7. Extension of Mappings	124
8. Function Spaces	129
9. The Completion of Metric Spaces	137
10. The Euclidean Spaces	144
Bibliographical Comment	149

CHAPTER FIVE

ARCS AND CURVES

1. The Arc and Naturally Ordered Collections of Sets	150
2. The Arc	163
3. Simple Closed Curves	170
4. The Jordan Curve Theorem	186
5. Peano Spaces	199
6. Property S	210
7. The Cyclic Connectivity Theorem	221
8. Local Compactness and the Relationship between E^2 and the Sphere	234
9. Simple Closed Surfaces	240
Bibliographical Comment	260

CHAPTER SIX

PARTITIONABLE SPACES

1. Introduction to Partitionability	262
2. The Equivalence of Partitionability and Property S	269
Bibliographical Comment	273

CHAPTER SEVEN

THE AXIOM OF CHOICE

1. Partial, Simple, and Well-Orderings	274
2. Alternative Forms of the Axiom of Choice	280
3. Examples of Applications of the Axiom of Choice	288
Bibliographical Comment	292

LIST OF SPECIAL SYMBOLS	293
